About Elpha Secure

Elpha Secure fuses cyber insurance with advanced cybersecurity software and support for a complete cyber defense in a single product designed for small and midsize businesses. Built upon a belief that all business owners should have access to the tools they need to function safely in the digital age, we evolve the standard approach to cybersecurity by providing user-friendly software, the protective measures needed to qualify for cyber insurance, and the insurance itself. We're headquartered in NYC, with technology teams spread across North America. Learn more at www.elphasecure.com.
